BENEDETTO CAVALIERI ARTISANAL PASTA

Pastificio Benedetto Cavalieri was founded in 1918 in the region of Apulia in the South of Italy. It makes top quality artisanal pasta from locally grown durum wheat flour by a manufacturing process called "delicate method" which involves long kneading, slow pressing, drawing and drying at a low temperature. Pasta shapes are made with bronze dies, which give a rough surface to the finished pasta allowing it to hold more sauce. The pasta has the flavour of quality durum wheat with natural chewy texture and high nutritional value of wheat retaining carbohydrates and proteins.

BALSAMIC VINEGAR OF MODENA

Acetaia Leonardi under Acetaia Reale brand

The Leonardi family has been producing balsamic vinegar for four generations. The century long tradition requires the wine must to be obtained from grapes and put in small wooden barrels used for a specific process: acidification (vinegar making), maturation and ageing. In the cellar of a 19th century farmhouse rest 2000 precious wooden barrels made of oak, chestnut, cherry, ash, mulberry and juniper. Each of them gives its very special taste and aroma to the Acetaia Reale Balsamic Vinegar during ageing. The taste is penetrating but pleasing and harmonious with pleasant smell.

Balsamic Vinegar IGP

(Protected Geographical identification)

Subject to strict regulation by European Commission regarding production (min 80% of cooked grape must), acidity value 6%, specific size of bottles and aging must be shown not in numbers but in medals i.e. 1 medal equals 2 years

Balsamic Vinegar Condiments

Condiments are not subject to the strict production requirements of IGP products and the acidity value is around 4.5-5%. Balsamic Condiments are obtained through the same production and ageing process as IGP products, however they are less acidic and therefore sweeter. White Balsamic Condiment is produced from white grape must acetified and aged in oak barrels that give the typical amber colour.
